Saif,

A sandbox version of the site has been setup on our Digital Ocean VPS for development. A droplet has been created from an image of the current live site, so everything is identical.

Wordpress Credentials:

Dashboard: http://104.236.40.172/blog/wp-admin/
Login: Saif
Password: SiIn53$@1

SFTP Credentials:

Address: 104.236.40.172
Login: root
Password: si9057274427
Path: /var

Wordpress is in /www/blog/ . The index.php file is in the root.
